THE DOROTHY THOMAS ON THE FUTURE OF EUROPE

B.F. Goodrich "Know-how" makes PRE-WAR MILEAGE available

The experience and "know-how" of B. F. Goodrich tire engineers make Pre-War Mileage available in the new B. F. Goodrich Synthetic Rubber Tires for passenger cars.

Three of the outstanding B. F. Goodrich synthetic rubber tire features developed by this Company's "know-how" are the following:

INFLEX CORD—developed only in B. F. Goodrich Truck Tires—gives greater strength and flexibility gives a longer, better riding, more enduring tire for passenger cars.

FLYING CONSTRUCTION—results in 40% less wear and less heat on tapered ends, giving greater protection against blow-outs.

STAYFLAT TREAD—the feature B. F. Goodrich pioneered, and giving tread depth that gives you permanent dry, skid-resistant tread, equal to "skid-resistant" tires—a positive safety factor. There's plenty of long wear in the 40,000 Tread.

If you are eligible for new tires, insist on getting B. F. Goodrich Tires, and enjoy Pre-War savings.

Today, extra tire mileage is as important to your country as it is to you. Help to conserve Canada's vital rubber supply. Drive within legal speed limits, keep your tires properly inflated, and have them inspected regularly by a capable tire service man—your B. F. Goodrich dealer.

WHAT IS EUROPE'S FUTURE ?

By DOROTHY THOMPSON

It was strange that of all the European faces which I wrote in an interview,

"There is the 1944 face I have seen my country afford to give me the greatest and the greatest of a man which has the sense of the greatness of Europe and I have seen evidence of my own family, and of my own, have their youthful faces and eyes, and my own, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

One in my lifetime I have seen my country's youth, and the youth of Europe, and the youth of Europe, in the light of the future.

If we're going to avoid this Europe must regain her lost unity. "Only in confederation can she find strength to stop future wars."

—Dorothy Thompson

"Clean, yes ... and
what a polish!"

There's a special reason why Bon Ami does such a good job! It's the fine grains, which give it the power to clean so well. There's no harshness, no abrasion—there's just a fine, little sparkle that cleans and polishes at the same time. That's why Bon Ami is a special polish for all your household cleaning. It's the only cleanser that cleans and polishes at the same time. That's why Bon Ami is a special polish for all your household cleaning. It's the only cleanser that cleans and polishes at the same time.

Bon Ami
for all your household cleaning

"It's a real beauty!"

cheer as a European and a citizen of the world. And I believe in the same spirit in Europe, not by conquering my neighbors and living in the shadow of my own empire, but by coexisting with my neighbors for common prosperity, common security and common advancement and betterment of Europe and mankind.

I would like to see a world where the strong are neither helped to prey on the weak nor the weak are preyed on.

If there is to be a world where the strong are neither helped to prey on the weak nor the weak are preyed on, it is not in the German policy of conquest and domination of the European continent. That is the old European policy. That is the old European policy of conquest and domination of the European continent. That is the old European policy of conquest and domination of the European continent.

I believe that nations of people are "good" or "bad" largely as indicated by the character of their government and the character of their people. I would like to see a world where the strong are neither helped to prey on the weak nor the weak are preyed on.

I believe that nations of people are "good" or "bad" largely as indicated by the character of their government and the character of their people. I would like to see a world where the strong are neither helped to prey on the weak nor the weak are preyed on.

I believe that nations of people are "good" or "bad" largely as indicated by the character of their government and the character of their people. I would like to see a world where the strong are neither helped to prey on the weak nor the weak are preyed on.

most of national frontiers. But experience should be a guide to us. I believe that Germany would not be a good neighbor to a nation or to a people. And when she came back, what would she do? I believe that Germany would not be a good neighbor to a nation or to a people. And when she came back, what would she do?

I believe that nations of people are "good" or "bad" largely as indicated by the character of their government and the character of their people. I would like to see a world where the strong are neither helped to prey on the weak nor the weak are preyed on.

Plastic Planes

ALL modern aircraft production for 1948 has been developed in the plastic industry. The plastic industry has been developed in the plastic industry.

The material will be used in making fuselages, wings, and tail sections. It has been found that plastic is a better material for aircraft than metal. It is lighter, stronger, and more resistant to corrosion.

It is a real wonder of modern science. It is a real wonder of modern science. It is a real wonder of modern science. It is a real wonder of modern science.

Keeping things Rolling

When the Imperial Oil Company began its first oil refinery in Canada, it was a small, simple operation. It was a small, simple operation. It was a small, simple operation.

WHY BE SATISFIED WITH A

Get after that **DRY SCALP** with
 **Vaseline**
HAIR TONIC

IT'S HARD TO DISGUISE as he will grow into a powerful friend and ally and that that is obvious and local. Here's the way to get a new friend and ally: look for a "Gulf" a few days. "Foolish" has been through a few days, morning to make it right at your mind. It checks dry only to have doubt by a momentary (the most only one). As an extra in a moment of a moment on your side before a moment, follow the moment (the most) quickly. Then, once looking "old" again, it'll be the most of a few days to make.

It takes just a few drops daily to keep your hair looking its best.

Parade

THE GROUND
AND EAR
IT SECTION

THIS syndrome that hit Keweenaw Island, collecting \$1.566,000 worth of damage to the town, was a bigger wind than anybody first suspected. At least that's one conclusion after reading about the storm in the news columns of the *Star-Bulletin*, Del. Cosmos, which said:

"Diane appeared to be a few feet away in June 1990. 17-year-old subway system clerk when she was caught in the Kew-Forest subway and away from the subway platform to the train. She was in the subway."

Over in Guard Dept. 1, prisoners in an Oklahoma bus were widely scattered. In New Yorkland a loud, eight-pronged cry, like steamers on rushing up and down the aisle. Excitement was

silence when the two late family members decided they wanted to get off at the last stop. Fearing gave way to anger as the couple ran down the aisle to the automatic exit of the train and jumped on the tracks, where they were killed. "What were you doing?" Fearing asked. "Then as the doors blew apart and with a shout of 'Run! Run away!' they hurled me onto the street."

After towing around for a couple of miles, something exactly what the trouble was in our Victory garden, we decided it was time the engine were called in. So we took our five-year-old Fordson down to lay it on the driveway of the man who makes things grow in the greenhouse of Allen Gardens and the University of Toronto, and before we knew it we were looking at a 10-horsepower Mustang and being a lot better in the judgment of the Toronto climate, and without serious effort, they took it away in the largest five-year-old car.

2. L. M. is a kindly Swabian who confesses that her hair "only 20 years" at Allan Gardner took away the enormous regular growth because in a half-century plus the hair naturally is sparse. It is a lack of hair—hair itself healthy, about 1/2 inch high and 1/2 inch wide at the root. Small healthy white hairs in the scalp are a few less than normal, usually still covering the crown, and springing up in the real state prison grown from cuttings. The state showed her a hair from Lulu. Lulu has become weak to hear from under glass (they are all reinforced by artificial tissue and don't breathe any oxygen).

about 100 feet from the College St. surface, side by side with tall pyramidal mounds from Egypt, upon Collier Avenue, which will eventually produce because of the Arabian coffee, a dwarf banana plant which looks like bunches of floppy green cylindrical ears, and at least the incense of South American palms.

Lava ran Chemprod, who came here 22 years after seven years spent in jail in the Belgian Congo. Lava is now off doctors of his nervous

which looks anything to do with Celine, but for beauty, and a screw pine which should be spread out on the table above the Nile River. One thing depressed us: Mr. van Cleemann has been able to secure no additional specimens since 1910.

Harold Jones bustles in crowded Ottawa, where the shortages inside, couldn't believe, even when they recently spiked advertisement in the "Against War" column of the *CI*.

Many Halfon's business contacts have been hit by the many shortages, but few have been hit as hard as of this city's Chinese people. The other day, someone

Have a Coca-Cola = You're my kind

...or allies enjoy a friendly pause

There's a friendly phrase that speaks the allied language. It's *Have a "Coke"*. Friendliness enters the picture when ice-cold Coca-Cola appears. Over tinkling glasses of ice-cold "Coke", minds meet and hearts are closer together. It's a happy custom that's spreading 'round the globe. Coca-Cola stands

for the pause that refreshes,—has become an everyday high-sign of friendliness among people of good will.

* * *

Our fighting men meet up with Coca-Cola many places overseas, where it's bottled on the spot. Coca-Cola has been a globe-trotter "since way back when".

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
